SKILLS

EXPERIENCE

YERBO, Full Stack Engineer (AUG 2023 - PRESENT)

I played a key role in creating a new impactful platform designed for trainers to showcase, measure, and enhance their training programs. Our primary tech stack includes React.js and Node.js.

INCLUIT, React Developer (JUN 2022 - JUL 2023)

I contributed to the development of a UCMS software platform designed for efficiently managing court cases within the state of Texas, United States. My responsibilities primarily involved utilizing React for the front-end development of the web application.

KICKSTA, Front-End Developer (MAY 2021 - JUN 2022)

I primarily contributed to the development of their flagship product, Kicksta, along with other web applications like InfluenceGrid and Wedding Hashers. The key technologies utilized in these projects included Vue.js and Nuxt.js.

PENGYI, Front-End Developer (JUN 2019 - JUL 2021)

In this software company, I was engaging in projects primarily utilizing Vue.js and React for a diverse clientele worldwide. Additionally, I gained experience working with JavaScript, TypeScript and Node.js technologies.
